

Building A Healthier Community

WMC Foundation Inc. Grant Application

WMC Foundation Inc. is the philanthropy arm of the WVU Medicine Weirton Medical Center. It was built on the belief that healthcare doesn't stop at the hospital doors, and that full-circle care means addressing the conditions that shape a patient's health long before and after their visit. For the Foundation, partnering with local organizations that share this commitment is one of the most effective ways to address these conditions. That is why the Foundation is looking to provide funding opportunities for organizations that strengthen our community's health in all its dimensions - physical, mental, social, and economic wellbeing.

If you are doing meaningful work to improve health and wellbeing of our community, we want to hear from you. We take a broad view of what full-circle care looks like, so tell us how your work addresses the conditions that shape our community's health.

If you're interested in being considered for funding, please fill out the application below.

The WMC Foundation will consider annual grant requests up to \$50,000, with a focus on projects in Brooke and Hancock counties and neighboring counties where our patients reside.

Tell Us About Your Organization
